David Pantano Biography
Please take a look at the following bio from the back cover of the book so that you can confirm that all looks good or let me know if any updates or factual corrections need to be made:

David Pantano is a multifaceted author, historian, researcher, translator and lecturer based in Toronto, whose work spans various disciplines including ancient mysteries, spirituality, alternative health, mythopoetic archetypes, and consciousness. His research focuses on the initiatory practices of both Western and Eastern traditions, offering unique insights into esoteric knowledge systems.
As an author, Pantano has contributed significantly to the field with his book "The Magic Door," an in-depth exploration of the Italic Hermetic tradition and most recently with “Alchemical Hermeticism” the secret teachings on initiation and higher states of consciousness. His translation work, notably "The Hermetic Physician," has brought important esoteric texts to a wider audience, shedding light on the teachings of Giuliano Kremmerz and the healing practices of the Fraternity of Myriam.
Pantano's independent research continues to bridge gaps between diverse spiritual and philosophical traditions, providing valuable perspectives into the relevance of ancient wisdom in the modern world and its impact on global consciousness. Please use this photo
